GARDINER'S CANDIDATURE

THE Review understands that a movement is on foot to induce Robt. Gardiner, member for this constituency as it is now constituted, to become a candidate in the interests of the Progressive party for the new constituency of Medicine Hat as outlined in the proposed redistribution.

Under this redistribution it is forecasted that the old riding of Medicine Hat will be divided into two ridings with Red Deer as the dividing line and both new constituencies extended westward. In this event a new Progressive candidate would be necessary for either one of the new constituencies.

Ever since his election to the federal house, Mr. Gardiner has been most popular among his constituents in the rural parts of his riding. It is only natural therefore, that both parties in the old riding will be anxious to retain him as their candidate under the redistribution. His decision as to where he will decide to run will be watched with interest not only by the Progressives but by all other parties. He will be a hard man to beat in either constituency.

THE EGG MARKET

IT is now beginning to look as though the regulations regarding the marketing of eggs are going to work hardships on the purchasing public. These regulations require the candling and grading of eggs into classes with different prices for different grades, both to the producer and consumer.

So far as being fair to the consumer is concerned the grading system is all right, but the frequent visits of inspectors have thrown a scare into both producers and retailers, until now both appear to be not very anxious to deal in eggs at all. The result is that farmers, rather than take a chance, are putting down eggs for their use, and a large percentage of eggs on the market are finding their way to the large packing houses, only to be returned again to the smaller centres at greatly increased prices.

The ultimate result is that now, when eggs should be the very cheapest, many of the retail stores are unable to get them except from the packing houses and the consumer is the one that suffers by having to pay the increased prices. Consequently the public is paying dearly for a few which are intended for their protection.

There should be no hardship on anyone if the regulations regarding the marketing of eggs were lived up to, to the letter. The trouble appears to be that some people do not want to go to what they consider a useless bother in order to put wholesome healthy eggs on the market and thus give the consumer his money's worth.

DEATH OF WM. JOHNSTON

THE sudden death of W. G. Johnston Labor member for Medicine Hat in the legislature, leaves a gap not only in labor ranks but in the legislature, which will be hard to fill.

Bill Johnston, as he was familiarly known, was, notwithstanding his short career in pub-

lic life, a man of those outstanding qualities, which well fitted him for the position he held in the community. Although elected to the legislature as a representative of organized labor, he took a keen interest in the needs of his constituency as a whole, and was always an untiring worker for what he believed to be in the interests of his constituents and the province generally.

His quiet, unassuming disposition, together with his reputation as a square shooter and a man with a heart, won for him that respect and admiration which demanded the attention of the house when he addressed the legislature on any subject.

It is said of him that he was one of the most popular members of the house among all parties and groups. This is one of the highest tributes that could be paid him.

In the death of Billy Johnston coming as it does in the summer of his public career, Medicine Hat constituency, both rural and urban, loses one of her most promising young men.

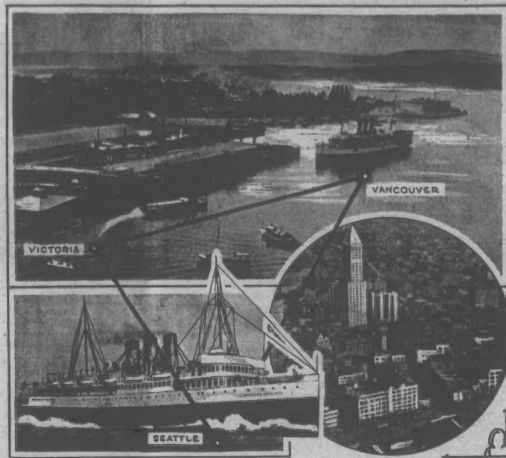

An exchange says: "I'll go one's life away is merely serving time."

A teacher asked her class where the capital of the United States is. John's answer was: "In the Wall Street banks."

In this issue of the Review, the British Dominions Land Settlement Corporation has an advertisement drawing attention to a scheme for moving farmers from the dry area of this province to other parts more suitable for farming. All interested should look up the advertisement and see if it appeals to them. It looks like a good proposition.

Canada is one of the most wonderful countries in the world. Quebec has 90 percent of all the world's asbestos, Ontario 90 percent of all the world's nickel, Alberta alone has 16 percent of all the world's coal. We have coal and iron at tidewater east and west, an asset that occurs in but few places in the world, and one that largely contributed to Great Britain's greatness. We are the third gold producers of the world and place rapidly towards first among timber, furs, fisheries, great agricultural areas, 18,250,000

The Tourist's Eternal Triangle

Someone has just published a book about Canada. It is only a little book—about eighty pages—but it contains an astonishing amount of information. It will tell you how many people there are in Canada; how many bunks of wheat were grown in 1924; how much money the government makes out of the business of governing. It will also tell you, incidentally, that Victoria, B.C. is one of the most beautiful cities of the world and that Vancouver has the second finest harbor there is anywhere.

That is the right sort of book to publish. There is nothing regrettable or yet inaccurate about the information it gives. It costs, if at all, in being a trifle too modest. "Victoria" is indeed one of the most beautiful cities in the world, but that is not all and we say about it. It is the capital of British

Columbia and as such is the centre of the province's recreational, industrial, and social activities and that's saying a whole lot. Then there's Vancouver. Look at its balking beauty, the climate, the harbor, the second finest harbor in the world where they have a great and beautiful ship of the Pacific Ocean to fling themselves and each other into to revive their weary bodies and minds whenever the business of operating their farmers' market becomes burdensome.

These two cities are linked with each other and with Seattle, to the south, by what is known as the Triangle Route of steamships of which the Princess Kathleen, of the Canadian Pacific Coastal service is a member. The "Kathleen" recently made her inaugural trip on this route and is now permanently in the service.

horse power in our waterpower. We have great waterways on which to carry our trade, and last but not least, a virile manhood second to none.

Now Unions! Presbyterians have decided to carry on "to the faith."

Geo. Lyall left last week and for the Pacific coast on business in connection with the Glass plant here.

Quite a number from here attended the Burns circus in Medicine Hat last Monday.

The Hat Calles defeated the Vets 9 to 7 in a league game last Friday. This is the biggest game ever registered in the Hat-Redcliff league.

School pupils are now preparing for the examinations which commence in two weeks. School work was for the summer holidays on June 30th.

Mrs. E. L. Stone received word last week that she had been selected by the Department of Education as one of the examiners for Grade VIII papers in Edmonton next month.

Weather in the Eastern States and Eastern Canada has been intensely hot during the past week. In the States several deaths have been reported.

Redcliff soccer play the Vets in Medicine Hat tonight in the Connought cup competition. The winners of the Calles-Western game. The first game will be played Saturday night.

Keep in mind the big Bowlst sport on Wednesday, July, 14th. A good program of athletic sports, horse races, boxing and cupping contests, and a dance in the evening, has been arranged.

The Calles defeated the Westerns in last night's game in the Connought competition. The score was 5-0. The final game in this competition will be played between the Calles and the allies and the winners of tonight's game between Redcliff and the Vets.

A news item from Brockville says Mrs. Crosby is the possessor of a freak chicken recently hatched, which has three wings, one on each side. It's the first time we know of Brockville chickens had three sides; unless it is that the third wing grew inside.

Heavy rains last Sunday evening and every day this week have greatly improved crop conditions in this district. The grain is now much greater than it does at present, thus assuring good harvest for the next few months at least. Surrounding sloughs are also well filled for the summer. The rains have been general throughout the province.

Word has been received in town stating that Robt. Gardiner, M. P. for this constituency will attend meetings throughout the constituency immediately after the close of the present session of parliament. Redcliff will be one of the first centres at which Mr. Gardiner will hold a meeting. As the time of progressing parliament is not yet definitely known the date of his meetings will be announced later.

Rains this week have made a big improvement in the lawns and golf links.

When the rainy season is over arrangements should be made to get a tournament going at the golf course.

The Altaz Society of St. Mary's church have postponed their rummage sale and afternoon tea. Watch for the date.

Mrs. Fred Cooper, formerly of Redcliff, stopped off here yesterday on her way to Guelph, Ont., to join her husband.

Don't forget to look over the Camo readers and see if your name is there. If it is, clip out the reader, take it to the Camo the night that show is on and get a free ticket.

Several Liberal conventions are billed to be held throughout the province this month. C. H. Mitchell, provincial leader, will attend all the conventions.

Mr. and Mrs. H. Crook, Mr. and Mrs. W. Crook and Miss M. Davis returned down from Brooks to spend the week end with Mr. and Mrs. John Rutherford.

Mrs. A. R. Ballantyne has been confined to the house for the past two weeks suffering from the flu. We are glad to report she is now convalescing.

Last Sunday Frank Albain said it was going to rain very day for seven days. It has rained five days in succession already. Frank has only two more days to go to get into the Post-er class.

Owing to the misarrangements of plans the play "Safety Hat," which was to have been put on here this week by Medicine Hat talent, has been postponed. This play will be put on later on. Watch for bills announcing the date and don't miss seeing the play. It will be put on here under the auspices of St. Ann's church.

Unless something happens to interfere with present plans, the swimming pool committee expect to have the pool ready for the opening of the pool on Monday, June 14th. Some improvements are being made to the heating apparatus and other additions made for the accommodation of the swimmers.

Rev. J. L. Cooper, new rector of St. Ambrose church arrived in town last week end and conducted his services last Sunday. Mr. Cooper has already created a most favorable impression in the members of his congregation. The Review joins in welcoming Mr. Cooper to Redcliff. It is the wish of all that his sojourn here will be pleasant and profitable.

We remind our readers of that big naval picture "Zettrug" which will be shown in the Monarch Theatre in Medicine Hat on Saturday of this week next Monday and Tuesday. This is one of the very best British pictures that ever came to this country. It shows the daring deeds performed by the British navy, when it successfully crippled one of Germany's main bases from which she conducted her barbarous U-boat warfare. The Monarch will show this picture on Saturday morning at matinee prices, especially for children.

**Equalization of
Freight Rates Ordered**

The Board of Railway Commissioners for Canada has been instructed by an order-in-council issued at Ottawa to make a "thorough and complete investigation of the effect of the rate of railway freight rates in the Dominion."

The order states that the equalization of freight rates should be recognized to the fullest extent consistent with the only means of dealing equitably with all parts of Canada and as being the method best calculated to facilitate the interchange of commodities between the various portions of the Dominion, as well as the encouragement of industry and agriculture, and the development of export trade.

Although the chief beneficiaries under the new British preference proposals will be Canadian sugar, tobacco and automobiles, it is stated that Canadian wines and silk goods will also benefit to a certain extent. In the sugar preference an increase of about 10%, and in tobacco of from a fourth to a sixth has been made.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$4 an acre, were increased to \$5. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a result of it, a settler may obtain a grant of \$100 from the Government as a reward for his work.

A. J. Learmonth left last Monday for Edmonton to represent Quarry lodge at the Masonic Grand Lodge being held there this week.

A party of Dominion Government surveyors were in this district this week securing information and data in connection with the oil situation and was disappointed when they found the only time he could get out was at night, as the picture is in big demand in all the centres. A Saturday morning show was out of the question here.

COMEDY AND ORCHESTRA

**Exceptional Offer to Farmers
in the Dry Area--**
Hundreds of farmers in the dry belt want an opportunity to make good in another part of Canada where good crops are the rule and not the exception.
We Will Finance You.
The British Dominions Land Settlement Corporation is a British Corporation with a capital of £1,000,000 (one million pounds). The Corporation has a strong British and Canadian Directors who are anxious to assist in the successful settlement of Western Canada with progressive farmers.
To these farmers promising their stock and equipment, free from tax and mortgage, and who are not of character and having experience, the Corporation is prepared to assist them in the purchase of land. The land is offered at prices averaging from \$100 to \$150 per acre. The terms provide that no payment of principal shall be made the first three years—interest and taxes only. Financial payments will be made to twelve annual instalments, commencing the day after interest rate 7%. The Corporation will advance the equivalent of each up to the value of the settler's stock and equipment for the first year, but not to exceed \$1000, to assist the farmer in meeting the necessary buildings and purchasing seed and feed or other supplies which may be necessary for the settler's welfare during the first twelve months. This advance will be repaid by the settler in the form of a mortgage and repaidable in five years after the first year. The whole amount being repayable in the second instalment during the third, fourth and fifth years.

Write us today--or come at once
Persons wishing to take advantage of this offer should communicate at once with the Manager of the Canadian Land Settlement Corporation, 1000-10th Avenue, Edmonton, Alberta. These settlers or telegraphing should state whether they wish to locate North of 36, or West of Edmonton.
